

27.09.24 - Y3 Maths Homework

L.O: I can compose 100 in 50s, 25s, 20s and 10s

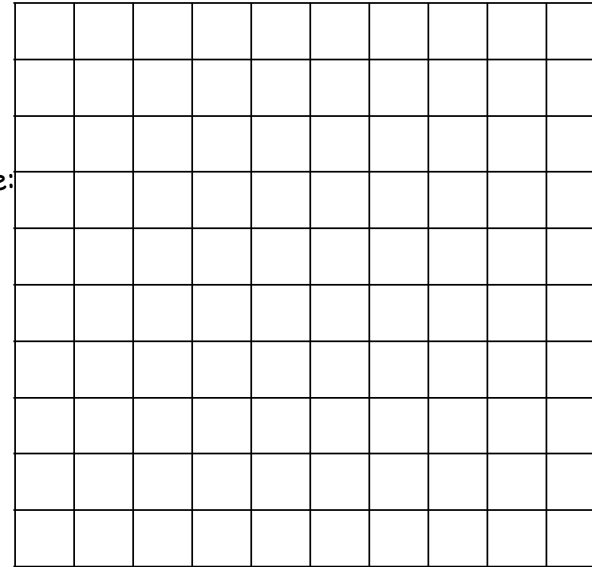

1. Compose 100 from two equal parts by colouring in the 100 square.

Use your model to complete:

$$50 + \underline{\quad} = 100$$

$$50 \times \underline{\quad} = 100$$

$$\underline{\quad} = 2 \times 50$$

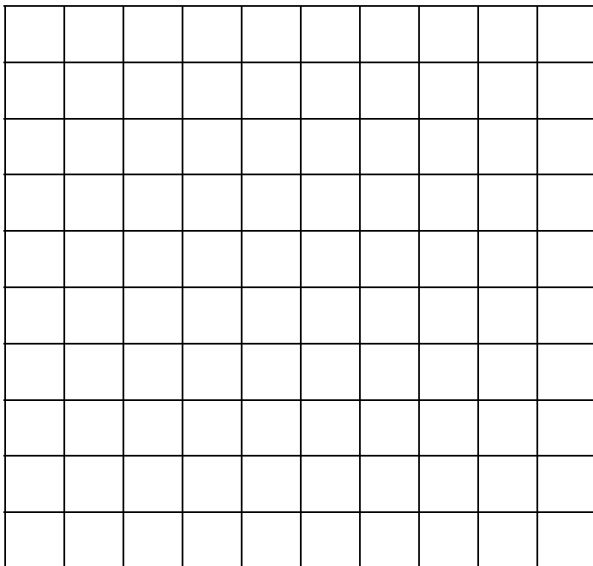

2. Compose 100 from four equal parts by colouring in the 100 square.

Use your model to complete:

$$25 + \underline{\quad} + 25 + \underline{\quad} = 100$$

$$25 \times \underline{\quad} = 100$$

$$\underline{\quad} = 4 \times 25$$

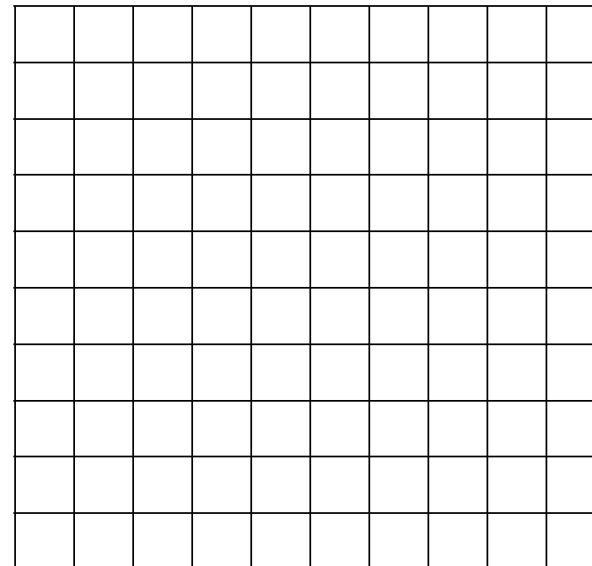

3. Compose 100 from five equal parts by colouring in the 100 square.

Use your model to complete:

$$20 \times \underline{\quad} = 100$$

$$\underline{\quad} = 5 \times 20$$

4. Compose 100 from ten equal parts by colouring in the 100 square.

Use your model to complete:

$$10 \times \underline{\quad} = 100$$

$$\underline{\quad} = 10 \times 10$$
