

Forest Schools learning from home activity

Nature Sculptures

Be inspired by artists such as Andy Goldsworthy and create sculptures outside using purely natural material.

Activity

Can you use what you have at home, in your garden, or collected from a daily walk to create your own mini sculpture? This can be based on anything, or if you are ready for a challenge, your class topic- SPACE!

Think

Have you ever visited the Yorkshire sculpture park?

I went with a class from my previous school and can't wait to go again.

Be creative with your sculptures.

As always please email your photos in to school for the Forest Schools Display.

Thanks and have fun

Miss Kime
